

- 1 Fold a piece of paper in half crosswise.
- 2 Fold the paper in half lengthwise and open it back out.
- 3 Fold the corners down the center crease.
- 4 Fold the long bottom strip up and fold the corners over.
- 5 Flip the paper over and repeat the previous step.
- 6 Fold the opposite corners together and turn it sideways to make a diamond.
- 7 Fold the corners up along the line shown, turn it over and repeat.
- 8 Open the triangle and fold the opposite corners together.
- 9 Hold the paper at the top and gently pull the sides apart.
- 10 The boat will start to form. Tweak it a bit to get the right shape.
