# IMMERSE YOUR CHILD IN THE CUTTING-EDGE WORLD OF VIRTUAL REALITY THIS SUMMER!

## CAMPERS AGES 7+. EQUIPMENT PROVIDED.

**The Y is partnering with WebXR this summer whose innovative virtual reality program "XR" will be used to teach coding at camp!**

## PROGRAM HIGHLIGHTS

- **Web-Accessible XR:**
  Students harness the power of browser-based tools to design 3D models, record audio, and create. interactive Virtual Reality (VR) and Augmented Reality (AR) experiences.
- **Project Creation:**
  Each student will develop a personalized XR project that can be viewed and experienced on laptops, smartphones, tablets, and VR devices. We'll have some VR headsets on-site!
- **Coding Made Fun:**
  Introduction to programming concepts using the intuitive CoBlocks system, perfect for beginners.
- **Design Thinking:**
  Emphasis on the creative process, from storyboarding and prototyping to playtesting and implementing feedback.

## BENEFITS

- **Creativity Boost:**
  Encourage innovative thinking and problem-solving abilities.
- **Future-Ready Skills:**
  Prepare your child for emerging STEM careers.
- **Inclusive Learning:**
  Designed for all students, regardless of prior computer science experience.
- **Try It At Home:**
  You can use your own devices to experience your child's work!

## CHILD WILL LEARN

- VR and AR Development
- 3D Modeling and Animation
- Basic Programming Concepts
- User Interaction Design
- Audio and Video Production

## PRICING

- 7+ Member Rate: $525
- 7+ Community Rate: $575
- Sessions 3, 4, 5, 6, 7, 8
